

**Table 2**  
**Variance Explained in Dependent Variables**

| Variable                        | $R^2$ |
|---------------------------------|-------|
| Perceived ease of use (“Ease”)  | .30   |
| Perceived usefulness (“Useful”) | .46   |
| Attitude about EHR use (“Att”)  | .73   |
