

Table 2

Objectives of Session 2 and Multimedia Content Used for the Intervention

| Objectives | Multimedia Content |
|---|--|
| Objective 1: Summarize the basic points of Session 1 | <p>Narrator video summarizes the Session 1 points.</p> <p>Vulnerable groups who are commonly stigmatized in the society (transgender people, sex workers, people who inject drugs, men who have sex with men, and migrant workers) are discussed.</p> <p>The virtual walk-through layout is shown again with pictures and signboards; the participant is instructed to touch the picture or signboard of the locations that surprised him or her the most.</p> |
| Objective 2: HIV transmission: routes and misconceptions | <p>Statements with pictures about HIV transmission are presented.</p> <p>When each picture is touched, a related video plays, followed by explanation of HIV transmission routes and misconceptions.</p> |
| Objective 3: How transmission fears influence our behavior | <p>Pictures depict four different procedures the nurse or ward attendant may perform in a healthcare setting are shown (in different settings for nursing students and ward attendants).</p> <p>Each picture is followed by four facial illustrations representing <i>no fear</i>, <i>mild fear</i>, <i>moderate fear</i>, and <i>severe fear</i>. Participants are instructed to think about how fearful or worried they would be to perform this procedure on a HIV-positive patient.</p> <p>This step is followed by a video showing two nurses or ward attendants sharing feelings and experiences regarding the situation.</p> <p>A video summarizing the objective is shown.</p> |
| Objective 4: Standard precautions | <p>Video on standard precautions is shown.</p> <p>Four videos are shown, each having two scenarios. The first scenario is the original scenario, showing an excerpt of a video from session 1. The second scenario displays the correct set of practices demonstrated by a nurse or ward attendant.</p> <p>A video summarizing the objective is shown.</p> |
