Figure 3: Example for the Best Practice for Use of Diverse Chart Types

119,330
People Vaccinated with at Least One Dose
Total Population
Orange County

One Dose for Total Population: 287,940 NC residents missing county information; 121,797 out of state residents

The Orange County, North Carolina, dashboard contains two different chart types, a county map and a bar graph. Both charts provide data about vaccination rates in North Carolina from two different perspectives.
