

Figure 4: HRSN Screen Report Displaying Positive Social Needs

The screenshot displays the Epic EHR interface. At the top, the navigation bar includes options like 'CView', 'Patient Lists', 'Patient Station', 'Chart', 'My Reports', 'In Basket', 'Templates', 'Schedule', 'View Sched', 'DAR - Dept Appts', 'Provider Finder', 'ED Chart', and 'Launch OBX'. Below this, the 'Schedule' section shows a date of 'Oct 01, 2019' and a 'Total: 21 Auto-refreshed: 16:14'. A table with columns for 'Patient Name/Age/Sex', 'Offer HRSN', 'HRSN decision', 'CM Insurance', 'Time', 'Status', 'Provider', and 'Type' is visible, but its content is redacted with a large blue block.

The main content area is titled 'Center for Medicare & Medicaid Services - Accountable Health Community Health Related Social Needs (HRSN) Report'. It features a large redacted area. Below this, the text reads: 'DOCUMENTED SOCIAL NEEDS: [redacted] electronic medical record includes the following CMS Health Related Social Needs information:'. Underneath, it lists 'Positive Social Need Categories' and states: 'During her most recent CMS-HRSN screen, [redacted] provided one or more positive response(s) for the below health related social need(s): Transportation needs'. It also notes 'CMS-HRSN screen response details are provided below.' and 'Patient has a Community Referral Summary (CRS) associated with an encounter on the below-referenced date. The CRS can be viewed in the Chart Review activity, under the Media tab.' At the bottom, there is a section for 'Default Flowsheet Data [redacted]'.
