Category: [Uncategorized](#)

Perspectives in Health Information Management is a scholarly, peer-reviewed research journal whose mission is to advance health information management practice and to encourage interdisciplinary collaboration between HIM professionals and others in disciplines supporting the advancement of the management of health information. The primary focus is to promote the linkage of practice, education, and research and to provide contributions to the understanding or improvement of health information management processes and outcomes.

PHIM is indexed in PubMed Central, the National Institutes of Health's digital archive of biomedical and life sciences journal literature. The complete *PHIM* archive on PubMed Central is available [here](#).
