

WINTER 2010 INTRODUCTION

Posted on July 6, 2009 by Administrator

Category: [Upcoming Issues](#)

As we approach the realization of a national health information network, it is important that HIM professionals not only understand issues surrounding HIT implementation but take the lead in HIT adoption. The 2010 Winter issue of *Perspectives in Health Information Management* is focused providing research on both policy and adoption issues as well as outcomes related to HIT implementation.
