

Table 5

Bivariate Analysis between Positive Attitude Concerning the Contribution of Classification Systems to Drawing up Valid Statistical Data at a National Level and Demographic Characteristics of Physicians

	Drawing Up Valid Statistical Data at a National Level		p-value
	No N (%)	Yes N (%)	
Workplace			0.016
Public hospital	13 (11.1)	104 (88.9)	
Private hospital	11 (26.8)	30 (73.2)	
Category of professional experience			0.005
Specialized (under training in order to obtain a specialization)	1 (3)	32 (97)	
Specialist (<10 years of experience)	3 (7.3)	38 (92.7)	
Specialist (≥10 years of experience)	20 (23.8)	64 (76.2)	
Type of graduate degree (in addition to the basic medical degree)			0.001
None	23 (22.1)	81 (77.9)	
Master's degree or PhD or both	1 (1.9)	53 (98.1)	
Age	50.4 (8.22)*	41.6 (10.58)*	<0.001
Number of Greek conferences	5 (3)**	8 (5)**	0.002
Number of international conferences	1.5 (5)**	3 (4)**	0.103

* Values are expressed as mean (standard deviation).

** Values are expressed as median (interquartile range).
